## Are you Static or Dynamic?

Maybe not you but how about your Fire dampers?

May 18th, Thursday, we will offer the second seminar in our series. This, again, will be held at 4:00 PM and will be approximately 1 hour long.

We will talk about:

- Dynamic vs. Static
- Type A, B or C
  - To sleeve or not to sleeve
  - How long — what gauge
- Angles
  - How many and where
- Maximum size
  - What if opening is larger
- Ceiling radiation damper vs. Fire damper
- Smoke dampers
  - Classes
- Fire/smoke dampers—where and when
  - Actuators
- UL 555/555S updates
- Installation Variations

T<sup>3</sup>SQ (VAV) diffusers are still in stock. Not the same ones as last time as we are selling these like warm-cakes.  
Have a problem? We have a solution.

### Stacks, Stacks, Stacks

Condensing Boilers?  
Heat-Fab AL29-4C

Round Grease duct?  
AMPCO—Zero Clearance

Chimney?  
Selkirk HT

Gas Vent?  
Selkirk Type "B"

We have a stack to meet your needs. Contact us for pricing.

We will, once again, waive all registration fees. If you would like to attend please contact us. Thank you

Much to our disappointment—UL has not yet let us hang a Fire Damper with Gripple

## Large Spiral Job?

Lindab will now do take-offs on large spiral jobs. Once they do the take-off they can produce CAD-Vent drawings which show all the pieces and lengths. Send us your drawings—We will get you prices.
