- Insulated Flex, Air Tites, Screws, Flex straps in stock
- Louvers, dampers, fire and smoke dampers ready to be quoted
- Lindab RGS-3 registers in stock - registers for round duct

Two weasels are sitting on a bar stool. One starts to insult the other.. He screams, "I slept with your mother!" "The bar gets quiet as everyone listens to see what the other weasel will do. The first again yells, "I SLEPT WITH YOUR MOTHER!" The other says, "Go home Dad, you're drunk."

Lindab Introduces new Double wall system

Lindab, manufacturer of self sealing Spiro Safe round duct has developed a new double wall round duct connection system that reduces labor and increases thermal resistance. This product makes putting together double wall duct as simple as the **Lindab** Spiro Safe single wall system many have tried and found to be quick and easy. As with all **Lindab** round products this new double wall system is available in galvanized, #304 stainless steel and #316 stainless steel. The lead time for this as well as the single wall product is still 8 days to ship. The system uses the same seal as single wall and carries the same guaranty of a SMACNA Class 3 leakage rate or better. If you would like to see a sample of this product or have a job you would like us to price please call.

Contractor uses GRIPPLE—SAVES Money

Yes, it is true. People are trying **GRIPPLE**.. One local contractor has used **GRIPPLE** to hang HEPA filter units and said "It took 1/4 of the time figured". Another contractor has hung over 4000 feet of infrared heating using **GRIPPLE**. The gymnasium at Belmont Hill School has **GRIPPLE** hanging all of the exposed round ductwork. These people saved money by using **GRIPPLE**. You also can make more money. Talk to your salesman regarding samples or a job.

TITUS offers concealed fastener Flow Bar

Titus now has available a new frame, #77, that allows Flow Bar to be installed after the ceiling or wall is finished. Previously, Flow Bar had to be installed at the same time as the wall or ceiling framing. We continue to offer the other Flow Bar frames but this flanged frame will allow us to use the product where time constraints have created problems in the past. This new frame is also available for curved applications. The other Flow Bar frames are still available, such as the frames that are not seen, #55 and #22. If you have an application or questions please call.

Louvers with "Kynar" equivalent — 3 day ship

United Enertech, manufacturer of louvers, remote control dampers, rectangular dampers, round dampers, motorized dampers, access doors, roof vents, penthouses, backdraft dampers, plenums, takeoffs, etc has their own finishing facility in which they can provide powder coatings with as little as one extra day lead times.
